

FOR IMMEDIATE RELEASE

May 27, 2008

CITY OF NEW ORLEANS, GENERAL DEGAULLE DRIVE AREA MANHOLE RESTORATION FIELD TRIAL

Virginia based company is offering a new, faster way to deal with sunken and worn out manholes

In an effort to assist the City of New Orleans with its ambitious road construction and restoration program, Global Manhole Restoration and Service Company LLC (GMRS LLC) conducted a highly successful field trial for the Department of Public Works from May 20-22, 2008 at three different locations in the City of New Orleans around General Degaulle Drive (Shirley Drive/Vespasian Blvd; Carlisle Court; 3725 Red Oak Court). GMRS LLC was delighted to offer a free trial and demonstration of the revolutionary manhole restoration process it can offer.

All three manholes are examples of highly damaged roads and were repaired within hours in a highly efficient demonstration by Global and its Austrian team.

3725 Red Oak Court before, during and after the restoration process:

The patented Manhole Restoration Process offered by GMRS LLC is the most efficient solution on the market today, saving time and money in the restoration process while using a special type of environmentally friendly cold asphalt made by the Austrian manufacturer VIALIT (www.vialit.com) – a highly innovative and successful Austrian company with customers such as BMW, the Vienna Airport and Austrian Road Building Departments.

GMRS LLC is a subsidiary of M Nettek International Inc. The GLOBAL system has been successfully implemented in Europe for over 11 years. MNI Inc's sister company in Austria has restored well over 15,000 manholes in the past 11 years with great success. The restorations are easy to perform and are saving time and expenses compared to traditional processes while offering extraordinary durability and performance. More information including a video of the restoration process is available at www.mnettekinternational.com.

The company's CEO, Mr. Nettek, a crew of US and European specialists as well as two representatives of VIALIT attended the well received field trial personally.
